Traumatic Stress-Related Accelerated Cellular Aging

Join us **October 24** to learn about the cutting-edge research funded by the Hines VA Serwa Research center from 11 AM to 12 PM. At 12 PM, Dr. Wolf will discuss her ongoing research on how post traumatic stress disorder impacts cognition and accelerates the age associated decline in brain function. Learn how you, as a VA provider and/or researcher, can help advance knowledge and improve the care of aging Veterans. Time: Oct 24, 2022 11:00 AM Central Time (US and Canada) thru 1 pm CST

<https://luc.zoom.us/j/89269488903> +1 312 626 6799 US (Chicago) or +1 309 205 3325 US
